

ARABEX (ARX) – Whitepaper

ARABEX (ARX) is a cryptocurrency project aimed at building a global financial ecosystem that provides secure, fast, and low-cost payment, transfer, and investment services. Unlike speculative meme coins, ARX is a utility-driven token with real-world use cases.

****Project Objectives:**** - Raise \$5 million in development capital through a presale of 5 billion ARX tokens at \$0.001 per token. - Use the raised capital to build a secure and compliant crypto-fintech platform. - Provide services similar to Western Union and Visa Click but powered by blockchain.

****Tokenomics:**** - Total Supply: 10,000,000,000 ARX - Presale: 5,000,000,000 ARX (50% of total supply) - Price: \$0.001 per ARX - Accepted Currency: USDT (BEP-20) - Network: BNB Smart Chain (BEP-20) - Remaining 5 billion ARX held by the founder for future development, incentives, and liquidity.

****Vision and Roadmap:**** 1. ****Foundation Phase:**** Smart contract creation, website launch, and community formation. 2. ****Presale Phase:**** Raise \$5 million via early investors. 3. ****Development Phase:**** Launch platform for payments and transfers; integrate with global systems. 4. ****Expansion Phase:**** Global licensing and scaling of services into Western markets.

****Compliance and Security:**** Liquidity will be locked, and smart contracts will be audited to ensure investor trust. The ARX project is committed to full transparency, compliance, and long-term sustainability. For more details, visit: www.arabexcoin.com
